

C-6018

TAMAGAWA SEIKI CO., LTD.

It is a great pleasure to inform you that we will be introducing our product miniature AC Servomotors and other products indispensable for your motion control

Ringkasan mengenai produk/jasa/teknologi

Komponen-komponen servo (encoder, resolver, rate sensor, gyro, servomotor AC, servomotor DC, step motor, motor torsi (torque motor), alternator, LVDT, dlsb.), penggerak motor (motor driver), pengendali (controller), robot, unit pengukur kelembaman (inertial measuring units), alat kendali otomatis (automatic control devices)

Deskripsi perusahaan

Sejak didirikan, Tamagawa Seiki telah menerima tantangan untuk presisi sudut (angular precision) untuk peralatan kendali (control equipment) seperti sensor presisi tinggi (high-precision sensors), motor dan mekanisme yang berputar (gyros), dan berhasil mengirimkan peralatan tersebut ke pelanggan. Kami kini telah menjadi salah satu dari sedikit pabrikan di dunia yang memiliki kemampuan untuk mengembangkan dan memmanufaktur sensor posisi/sudut (position/angle sensors) baik yang berdimensi dua (two-dimensional) maupun tiga (three-dimensional) (spatial). Kami telah menerapkan teknologi sensor presisi tinggi (high precision sensor technology) yang terkemuka bagi "System Gerak (Motion System)" kami yang penerapannya meluas bahkan di dalam industri ruang angkasa.

Target

Peralatan industri, perkakas mesin (machine tools), alat produksi semi-konduktor (semiconductor production devices), industri mobil, dlsb.

Summary of Products/Services/Technologies

Servo components (encoders, resolvers, rate sensors, gyros, AC servo motors, DC servo motors, step motors, torque motors, alternators, LVDTs, etc.), motor drivers, controllers, robots, inertial measuring units, automatic control devices

Company Description

Since its foundation, Tamagawa Seiki has taken up the challenge of angular precision for control equipment, such as high-precision sensors, motors and gyros, and successfully delivered such equipment to its customers. We are now one of the few makers in the world with the capability to develop and manufacture both two-dimensional and three-dimensional (spatial) position/angle sensors. We have applied leading-edge high-precision sensor technology to our "Motion System," whose fields of application are extending even to the space industry.

Interested In

Industrial equipment, machine tools, semiconductor production devices, automobile industry, etc.

TAMAGAWA SEIKI CO., LTD.

Address: 1879, Ohyasumi, Iida-shi, Nagano 395-8515, JAPAN

TAMAGAWA SEIKI CO., LTD.

Representative Office in Singapore

Contact Person: Marina Makino
E-mail: marina-makino@tamagawa-seiki.co.jp
Tel: +65-6288-3317 Fax: +65-6288-5817

TRI EQUIPMENTS SDN. BHD. Representative for TAMAGAWA

Contact Person: Chan Lilian
E-mail: chan_lilian@triequipments.com
Tel: +60-3-9058 4976 Fax: +60-3-9058 4972
Address: No.18-3 (2nd Floor), Jalan Radin Tengah, Bandar Baru Seri Petaling, 57000 Kuala Lumpur, Malaysia.
